

Client: ICM – Front Range Energy

Project: Selective Milling Technology Skid Install
Windsor, CO

BENCHMARK HIGHLIGHTS

Scope/Summary – ICM was hired to construct and Selective Milling Technology skid at the Front Range Energy Ethanol Plant. Benchmark Electrical Solutions, Inc. provided power to the skid motors and equipment. Benchmark also installed approximately 200 LF of cable tray with motor feed conductors. We also grounded the skid to the existing plant ground grid.

- Cable tray
- Ground grid
- Terminations

- MCC installation
- Moved existing PDC in control room

Benchmark Project Management

- Dave Aguiar – PM
- Operations Manager – Pete Dobbs
- Superintendent – Ian Trujillo

Notable Features

- Active Ethanol Plant
- 200' Cable Tray
- Grounding
- Conduit

Reference/Owner

ICM
